AT CALDERA SPRINGS

An Owner's Guide to Property Management

Provided by Sunriver Resort Vacation Properties

Updated March 4, 2026

The popularity of Caldera Springs as a vacation destination has never been stronger. Each year, more and more families, couples and other travelers discover how our community blends peaceful forest serenity with almost unlimited access to the many nearby amenities and attractions.

This growth in demand is part of why we're so excited to welcome Lakeside vacation homes. What makes these homes so desirable is their built-in flexibility. Each residence features a four-bedroom floor plan, including an attached studio with its own entrance, bathroom, kitchenette and patio. Both the main home and studio participate in Caldera Springs' vacation rental program, planned to support flexible use and enhance ownership value.

Below are a few key highlights of our vacation rental management program and an overview of rental requirements intended to help owners as they consider ownership of a Lakeside vacation home.

LAKESIDE RENTAL REQUIREMENTS

Lakeside vacation homes are "Designated Overnight Lodging Units" as described in the "Supplemental Declaration of Protective Covenants, Conditions and Restrictions for Caldera Springs". Each Lakeside home includes two separately rentable units: the main home consisting of three bedrooms, plus the separate studio bedroom. Each of these separately rentable units must be "... available for overnight rental use by the general public for at least 38 weeks per calendar year through a central reservation and check in service operated by the Declarant and its assigns or through a licensed real estate property manager, as defined in ORS 696.010."

See the link to "Supplemental Declaration" [HERE](#).

Sunriver Resort Vacation Properties is affiliated with the developer ("Declarant") of Caldera Springs and provides the central reservation and check-in service required in the Supplemental Declaration. We are the only vacation rental manager with offices in Caldera Springs that can provide this service to owners.
